THE
SUFU ART
GROUP

The Communication of Music and Group Efforts

This program aims to

- 👉 develop effective communication for our students.
- 👉 build connections by improving communication in a therapeutic setting.

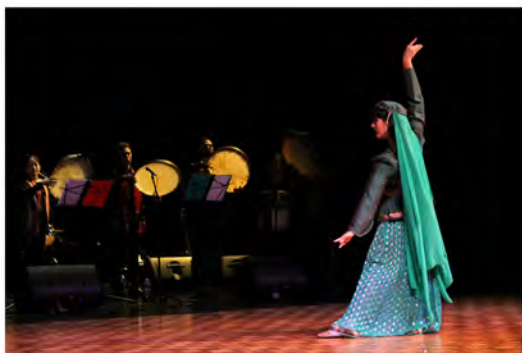

This package is supported by
TAFE Queensland English
Language and Literacy
Services.

Why communication is so important?

Communication is a major part of everyday life.

Without verbal and nonverbal communication it would be very hard to interact in social events and with others. It is imperative to have proper communication in today's society, especially for our refugees.

As there are usually language barriers, they need to find ways to effectively communicate in Australia, which will make their transition easier.

Who will benefit from this program?

English Language students in possession of a TAFE Queensland student card.
